PROFESSIONAL EXPERIENCE

PwC Consulting (Shenzhen) Co., Ltd. – Guangzhou Branch Oct 2025 – Dec 2025
Data & Employer Branding Intern | Guangzhou, China

- Built a **Python web-scraping pipeline** (cURL, XPath/JSONPath, RegEx) to harvest **2,000+ data points daily** from global media sites and think-tanks; resolved dynamic loading and pagination issues, achieving **98% data accuracy**.
- Analysed competitor graduate-recruitment strategies and new-graduate employment trends across social platforms, producing structured reports that informed talent-acquisition decisions.
- Designed **process-visualisation guides** for onboarding and coaching programmes, translating complex internal frameworks into clear infographics; reduced new-hire onboarding confusion and improved engagement.
- Managed bilingual (EN/ZH) social-media matrix across WeChat, LinkedIn, Xiaohongshu and Instagram, incubating a comic-IP series that measurably increased follower engagement in both domestic and international talent markets.

Jinan University Computational Communication Research Centre Jul 2024 – Sep 2024
Research Assistant / Data Analyst | Guangzhou, China

- Independently configured and operated a **network data-collection system** targeting 15+ international media websites and think-tanks, delivering structured datasets for downstream visualisation and profiling research.
- Engineered validation rules across 15+ core fields using merged XPath paths to handle heterogeneous web-page structures; maintained **98% data accuracy** at 2,000+ records per day.
- Core stack: **Python, cURL, XPath, JSONPath, RegEx**.

Guangdong Hengjian Asset Management Co., Ltd. Jul 2024 – Aug 2024
Business Management Intern | Guangzhou, China

- **M&A research:** Co-authored a 3-page investment report on Nanhai Fund's acquisition of Hanlan Environment, synthesising information across **30+ analytical dimensions**; produced 2-page data tables and a 1-page diagram template used in board-level presentations.
- Processed **300+ expense reimbursements** and journal entries via the Kingdee ERP system; maintained 5 categories of operational ledgers covering 600+ data items.
- Drafted board-meeting minutes and roundtable speeches for senior management.

Guangzhou Yuexiu District Youth Innovation Centre Jan 2024 – Feb 2024
Event Coordinator | Guangzhou, China

- Designed and administered a volunteer-satisfaction survey (N=30, 85% response rate); performed data cleaning and statistical analysis, identifying 'insufficient training duration' as the key pain point — leading to training sessions being extended from 1 to 2 hours.
- Authored a city-wide service-system proposal that contributed to expanding the volunteer fire-safety corps by **150,000 members** across 11 districts.
